COUNTERFEITERS NABBED.

A Horrible Mt. Vernon Murder.

FOUR LADIES INJURED IN A SAN JOSE ACCIDENT.

Silver is Advancing—The Corporation Wins—Fell From a Scaffold—Engineers Kick.

Special to the APPEAL:

Counterfeiters Arrested.

Atlanta, Ga., Aug. 15.—A week ago Lou Sturgis was arrested for passing counterfeit money. Soon afterward J. M. Dunford, a merchant in Savannah, was arrested on the same charge. For several weeks the city has been flooded with spurious dollars, halves, quarters and dimes, and the United States deputy marshals have been on the lookout. The arrest of Sturgis and Dunford gave them a clue which they followed closely. They learned that the money was obtained from two young men—Charles R. and Charles M. Chisholm—and they watched them closely.

In the rooms occupied by the young men were found a lot of spurious money. A large amount of the money was hot, as if it had just been made. The officers found broken mold, ladles, pots and metal used in making the money. The men were locked up in default of bail. They are well known and they married. Their wives were in the city at the time of the arrest. Charles R. Chisholm was until recently a special bailiff.

Murder and Mutilation.

Mount Vernon, Ill., Aug. 15.—The missing Lizzie Struber's body has been found in one of the wildest parts of this county. She was last seen Thursday night as she passed through a stretch of woods driving from her home in the southern part of Marion county toward her sister's in the eastern part of this county. Just after she was last seen the reports of two pistol shots followed by a woman's scream were heard. Search was at once instituted, but no trace of her murderer or herself were found until today, when her body was discovered in the woods horribly mangled, with three bullet holes in it, and both legs cut off. The place where the crime occurred was one of the wildest parts of this county, and the particulars of the crime are hard to get.

Saw the Point However.

Kalamazoo, Mich., Aug. 15.—During the two weeks past four Grand Rapids and Indiana engineers have been discharged for alleged color blindness. The men are among the oldest in the employ of the company, and two of them had their sight tested by experts. It was found to be better than the average, and the men have asked to be returned to their positions, and it is understood that the officers will not accept them. Brotherhood men here say that unless the men are reinstated trouble will follow. The trainmen's Union will support the Brotherhood and the result is being looked forward to with anxiety.

Distance Annihilated.

Paris, Aug. 15.—The Figaro makes the important announcement that the difficulty of working long-distance telephones under water has at length been overcome, and it will be possible to converse as easily between Paris and New York as between Paris and Versailles. The discovery is the achievement of a Frenchman, M. Oillot, Inspector of Telegraphs in this city. The inventor is fully assured of his success and has no doubt his improved telephone will be in complete working order before the end of September.

A Bad Accident to Four Ladies.

San Jose, Cal., Aug. 15.—Mrs. Macovey and Miss Kirkpatrick of Philadelphia tourists and Miss S. Maynard and Mrs. Menett of this city riding four miles from town when the springs of the vehicle broke and all was thrown out and severely injured. Miss Maynard's condition is critical.

Accepted the Reduction.

Lancaster, Pa., Aug. 15.—The Susquehanna Iron Company and Columbia Iron Company started work-to-day after six weeks' suspension. Puddlers accept the reduction from \$4 to \$3 65 per ton. About 6000 men are employed at the mills.

We Are Advancing Silver in Value

San Francisco, Aug. 15.—The silver market had a sharp improvement in leading financial cities of the world today and the mining people were somewhat relieved. The London price rose 1-4 d per ounce over Saturday's rate and was quoted at 38 1-8d New York prices which had been 82 1-2 cents last Saturday rose to 83 1-8 cents, a gain of 5-8 of a cent per ounce.

E. Keating of California, the driver of Extravagant and Our Dick, from the American Association tracks for one year.

ANOTHER STATE CONVENTION.

A Proposition to Guard Against Accidents.

The Silver State says the Chairman of the State Central Committee of the Silver party has received communications from nearly every county in the State, some suggesting and some urging the calling of another State Convention of the party to instruct the nominees for Presidential electors to vote for Weaver and Field, and to nominate a State ticket if certain contingencies arise.

The Silver State approves of calling the convention, and explicitly indorses Weaver and Field, as the Colorado Silver party has done, and as every true friend of silver must do. It wants the lines clearly defined before election so as to guard against trickery. It tells the old party politicians to put up Harrison and Cleveland electors as they now contemplate, and the silver men to accept the gauge of battle and fight to a finish.

While there is truth and force in what the Silver State says the silver men should proceed with caution and make no mistakes. According to reports from Nye, Lander and other parts of the State a majority of delegates to the Republican State Convention will be instructed to indorse the silver party electors. With such indorsement Messrs. Wren, Bonfield and Powning will have no opposition except from the dissemblers, who talk free coinage while advocating the election of gold-bug candidates. Many of the advocates of free coinage are not troubled with an overabundance of money and they should not be compelled to incur the expense of again assembling in State Convention unless it be absolutely necessary. There is no danger whatever, of the Silver party electors voting for anybody but General Weaver for President of the United States unless directed to do so by the silver Convention. They are pledged by platform and declaration against Harrison and Cleveland, and committed to the only free coinage Presidential candidate in the field. Reno Journal.
